departed this life 23 March 1815, Aged 1 Year 6 months & 25 days — short journey from the place of Sorrow to the land of rest.

My Sweet little babe — Youngest of my love by family — the first plant, of mine, removed from the valley of nuts, to the heavenly Paradise — wherefore should I weep? I shall go to her but she shall not return to me.

5 W. A. 29th Sept.r 1815

Mary Jane, departed this life on Tuesday 6 O'Clock in the morning, the 21st November 1815. Aged 4 Years 7 Months & 4 days. Soon has she followed her younger Sister. She lies beside her in the silent grave. My fair girl, God has stricken thy Father in thee; thou art happy, while he mourns thine Absence. Sweet Prattler I see thee, I hear thee no more.

6 Alex.r S. 10th Sept. 1817.

7 Cornelius Dor. 17th Nov. 1820.

8 Wylie Black, 27 Sept. 1822

This Child died, while I was attending Synod in Pittsburgh, 12th August, following, 1823. He lived in this vale of tears ten Months & sixteen days. Truly his days were as an handbreadth. I witnessed not his last sufferings; but I saw the new Grave, which contained a Treasure - Earth as it is; yet a sanctified body, that shall rise incorruptible.

The CALCULATIONS of the KALENDAR are now adapted to *mean time*, or that ſhown by a well regulated Clock or Watch. In computing the time of Sun and Moon's riſing and ſetting, the effects of Refraction and Parallax, as well as the motions of the Luminaries, are allowed for. And the Tides are calculated from the relative forces of the Sun and Moon, as modified by their poſitions, diſtances, and declinations. ALEX. INGRAM.

NEW STAMP DUTIES,

COMMENCING OCTOBER 11. 1808.

The new Duties imposed by the act 48th Geo. III. cap. 149. are of the like nature, and in general of the same amount, with the late Duties; but a more precise and accurate description is given of the Instruments on which they attach. There are some Duties altogether new, and some new in amount.—Admissions to Offices, &c. on Instruments of Conveyance, Contract, Obligation, and Security; on Deeds in general; and on other Instruments, Matters, and Things contained in the schedule referred to in the act, which can only legally be drawn or prepared by Writers to the Signet, Solicitors, Procurators, Notaries, or by Public Officers, Clerks of Court or Corporations, by virtue of their offices, who are responsible for such Instruments being written on paper, parchment, or vellum, stamped with the legal duties, will be attended to by those employed to draw or prepare such Instruments in the course of their professional or official duty.—The Duties applicable to the different Instruments in the schedule are classed and alphabetically arranged, with numerous references, so as to constitute a complete Table of Duties, in the most convenient and practical form, and to supersede the necessity of those compilations to which the profession of the law and the public have hitherto found it expedient to resort. *The schedule is also framed so as not to admit of any abridgement that can be safely relied upon. The Commissioners of the Stamp Duties, therefore (in their notice respecting this new act), recommend it to the profession, and others whom it may concern, to look only to the schedule itself for information.*

The following Instruments, Matters, and Things chargeable with Duties, may however be prepared and drawn by the parties themselves—It is therefore deemed proper to give the schedule, with the regulations, &c. verbatim, so far as regards Instruments, &c. of this description.

And where it shall amount to 500l. or upwards	1	10	0

POLICIES for FIRE INSURANCES and Duty, and POLICIES for SEA INSURANCES, remain as formerly published; but the duties of 2s. 6d. and 5s. on certain sea insurances described in the present act, are thereby extended to Policies or other Instruments by whatever name called, whereby any *other lawful insurance whatsoever, not charged in the act*, shall be made upon any property or interest whatever, from loss or damage of any kind. And if the *separate interests* of two or more distinct persons shall be insured by one instrument, the duties as the case may require, shall be charged thereon, in respect of each and every fractional part of 100l. as well as in respect of every full sum insured upon *any separate and distinct interest.*

CONFIRMATIONS of Testaments, testamentary or dative Eiks and Inventories.—In the cases of persons having died after the 10th of October 1804, and before or upon the 10th of October 1808, the duties will be chargeable on the confirmations or eiks: But, in the cases of persons dying after the 10th of October 1808, the same will be chargeable on the inventories or additional inventories required to be recorded in the Commissary Court. In other respects, these duties are the same as at present; but they are not to attach on the value of any estate or effects whereof the deceased was possessed as a trustee for other persons, and not beneficially.

LAW PROCEEDINGS.—No new Duties, applicable to Scotland, have been introduced; except in so far as the duty on depositions of witnesses is extended to depositions of every description, taken by commission or otherwise, in any cause or suit, before the Court of Session, Commission of Teinds, or the Commissary Court at Edinburgh, or in any civil cause before any inferior Court: And the present duties are increased only in the cases of summonses before the Commission of Teinds, and the High Court of Admiralty, which are placed upon the same footing with those before the Court of Session and Court of Exchequer. There is an exemption from the summons-duty, with relation to suits at the instance of the public prosecutor, for the public interest, or where the public revenue is concerned.

LEGACIES and SUCCESSIONS to Personal Estate upon Intestacy.—The only alteration in the duty on these is, that, in in the cases of residues, the duty is to attach upon the clear residue, when devolving to one person, if it amounts to 20l. or upwards; and upon every share amounting to 20l. or upwards,

but not on a less share of the clear residue, when devolving to two or more persons. But it being apprehended that many persons may have heretofore neglected to pay the duties on legacies and on residues of personal estate, given by will, or devolved to next of kin upon intestacies, within the time prescribed by law, through ignorance or inadvertence, or from accidental or unavoidable causes, the act authorises the Commissioners to remit the penalties, which may have been incurred in such cases, provided the duty shall be paid on or before the 31st of January 1809.

A TABLE,

SHOWING the proportional Value which the different Funds ought to bear to each other. *Example.*—If I find 100l. 3 per Cents. can be bought for 48l. and that 100l. 5 per Cents. fell for 95l. it is my advantage if I hold 5 per Cents. to fell them, and buy 3 per Cents. becauſe I find by the Table, that at 95 per Cent. theȳ produce 5l. 5s. 3d. per Ann. whereas the 3 per Cent at 48l. per Cent. produce 6l. 5s. per Cent.

TABLE OF THE WEATHER.

The following Table, conſtructed by the celebrated HERESCHEL, upon a philoſophical conſideration of the Attraction of the Sun and Moon, in their ſeveral poſitions reſpecting the Earth, and confirmed by the experience of many years actual obſervation, will without trouble ſuggeſt to the obſerver what kind of weather will moſt probably follow the moon's entrance into any of her quarters, and that ſo near the truth, that in very few inſtances it will be found to fail.

New or Full Moon.	*Summer.*	*Winter.*
If it be a new or full moon, or the moon enters into the firſt or laſt quarter, at the hour of 12 noon	Very Rainy.	Snow or Rain.
Or between the hours of		
2 . . . . & 4	Changeable.	Fair & Mild.
4 6	Fair.	Fair.
6 8	Fair if wind N.W. Rainy if S. or S. W.	Fair and Froſt if N. or N.E. Rain or Snow if S. or S. W.
8 10	Ditto.	Ditto.
10 . . . Midnight	Fair.	Fair & Froſty.
Midnight 2	Fair.	Hard Froſt, unleſs Wind S. or W.
2 4	Cold with frequent Showers	Snow and Stormy.
4 6	Rain.	Ditto.
6 8	Wind & Rain.	Stormy.
8 10	Changeable.	Cold Rain if W. Snow if E.
10 . . . . 12 Noon	Frequent Showers.	Cold with high Wind.

Hence, the nearer the time of the Moon's entrance at full, change, and quarters, is to *Midnight*, (that is, within two hours before and after midnight) the more fair the weather is in ſummer; but the nearer to *Noon* the leſs fair—alſo the Moon's entrance at full, change, and quarters, during ſix of the afternoon hours, viz. from four to ten, *may* be followed by fair weather, if this is moſtly dependent on the wind. The Moon's entrance in all the hours after midnight, except the two, firſt is unfavourable to fair weather. The like nearly may be obſerved in the winter.

Dr. Andrew Ure, Profeſſor of Natural Philoſophy and Chemiſtry.

This Inſtitution, eſtabliſhed in purſuance of the will of the late John Anderſon Profeſſor of Natural Philoſophy in the Univerſity of Glaſgow, and endowed by him with a valuable Philoſophical Apparatus, Muſeum and Library, was incorporated by a Charter from the Magiſtrates of this city, dated June the 9th, 1796. It is continued under the inſpection and controul of the Lord Provoſt, &c. as ordinary viſitors, and under the immediate ſuperintendence of 81 Truſtees, who remain in office for life, conſiſting of Gentlemen converſant with the Arts and Sciences; from theſe, nine perſons are elected annually to whom the principal part of the management is committed.

The Inſtitution having recently become Proprietor of thoſe extenſive and commodious Buildings which it formerly only occupied in part, has thereby acquired that ſtability and independence which a ſeminary fraught with ſo much uſefulneſs to a commercial community ought to poſſeſs. To the original ſtock of Apparatus very conſiderable additions have been ſucceſſively made, the whole now conſtituting means of Philoſophical Illuſtration not ſurpaſſed in the kingdom. There is one point of view in which this Inſtitution may challenge undivided approbation. It is the only ſeminary in Europe where the doors of Science are gratuitouſly laid open to the Artizan. About 500 of this order of citizens are annually inſtructed in the applications of Mechanical Science to the uſeful Arts. The original and ſucceſsful exertions of Anderſon's Inſtitution in this reſpect, have recently attracted the favorable regard of his Majeſty's Government; and the detail of its Plans of Inſtruction which they requeſted has been ſince ſubmitted to his Majeſty. In order to render this department ſtill more efficient, a valuable collection of the moſt approved treatiſes on the ſcience of Mechanics and Chemiſtry, has lately been provided for the peruſal of the ſtudents.

Three Courſes of Lectures are annually delivered: One on Natural Philoſophy; its evenings are Tueſday and Thurſday.—One on Chemiſtry; on the Monday, Wedneſday, and Friday Evenings; and Tueſday, Thurſday, (and occaſionally Saturday) mornings, at 8 o'clock.—And one on the Saturday evenings to Mechanics.—Alſo Lectures on Botany; Tueſday and Thurſday, at 12 o'clock, beginning in May.
